GET Inspired!

Generation's Innovation Fair '22 was a Learning Brigade!

“

THE HABIT OF **ASKING QUESTIONS**
IGNITES THE **INQUISITIVE MINDS** OF
STUDENTS WHICH IN TURN, MAKES
THEM MORE **PASSIONATE ABOUT**
LEARNING...

”

Ms Fahmida Jamall
Headmistress, Starter Section

SAFER GENERATION'S. SAFER PAKISTAN.

Get yourself & your children vaccinated.
Vaccination can reduce the chances of
serious illness and long-term complications
from a Covid-19 infection, insha'allah.

Celebrating Leadership...

Iqbal Week @ Generation's

The Iqbal Society of the Senior Section gave traditional Bait Baazi a refresher with a poetry competition!

Iqbal Leadership Day was observed with special tributes from students in assemblies.

Ms Janita Andersen, Director of International Higher Education, FranklinCovey USA, visited the South Campus on the same day. Her tours of the sections including the classrooms were completely student-led, which provided our young Generians with the opportunity to communicate with confidence.

At the Grand Assembly, Dr Ghazala Siddiqui talked about the importance of learning from Iqbal's work to nurture Muslim identities.

Buddy Programme

Partnered with younger buddies, the big buddies feel empowered, engaging their little buddies in fun activities. The programme nurtures school connectedness and learners become aware of their actions, impact, and importance at school.

Nursery's Pet Show

Nurseries brought their pets to school! Little ones familiar with pets quickly reached out for the baby goat, cats, parrots and other pets, and some took their time to stroke or cuddle the animal. Such wonderful creatures Allah has made!

Little pets that swim...

Cuddly pets that bleat!

And soft ones that curl!

Gen Spelling Bee...

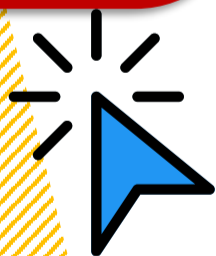

Acing an impressive list of words and winning the spelling bee is a prestige activity for Generians. Students work hard to learn a challenging list of words and focus on getting every spelling correct!

The successful winners this year were

- Aariz Abdullah III-M
- Sarim Ali IV-K
- Affera Siddiqui V-C
- Maria Tariq VI-G

They were also the SPELL MASTERS from their respective grade levels! Well Done, Generians!

Click to watch the event highlights

Read. Lead. Succeed.

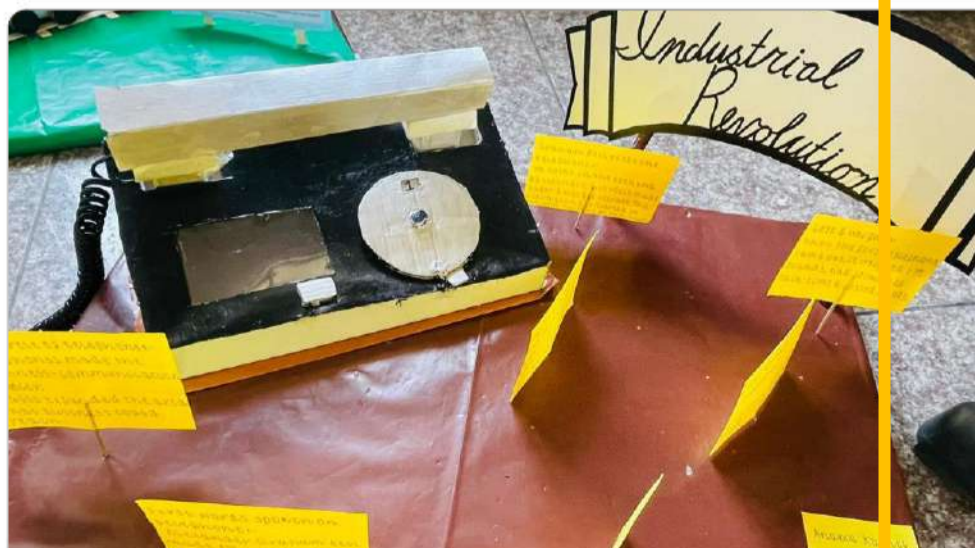

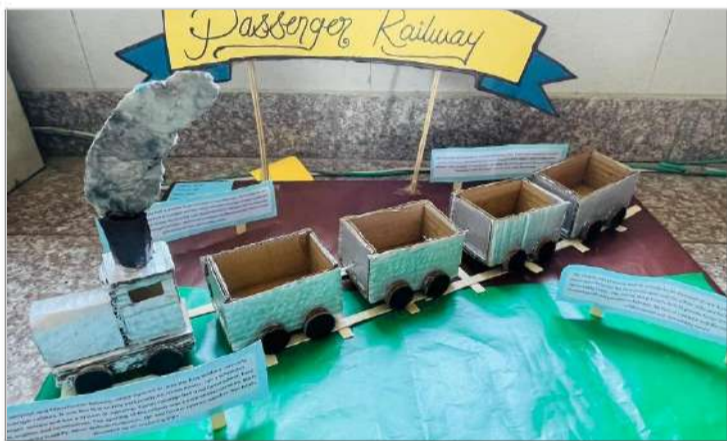

Student leaders of the **Gen Readers and Writers Express, a Middle Section club**, organized an enlightening session with Prof. Lubna Shaheen, who shared some very important tips for enhancing reading and writing skills. A few students from Grades VII and VIII performed role plays around the benefits of reading books.

IKSC Achievements

Mishal Ovais of Grade VIII won the Bronze medal at the International Kangaroo Science Contest. In addition, 13 students won One-Star badges whereas 67 won special ball-pointers. A total of 87 students participated from the Middle Section.

The Phenomenal Transition

Grade VIII constructed mini-3D models of inventions during the Industrial Revolution, which changed the agrarian & handmade products economy to one dominated by industry and machine manufacturing. This process began in Britain, in the 18th century and spread to other parts of the world. These technological changes introduced novel ways of working and living and fundamentally transformed societies across the globe.

Almost all of the inventions back then have morphed into more advanced, eco-friendly consumer products to benefit humankind

The Gems of Johar

The Johar Declamation Championship brought speakers to debate social, moral and other pertinent issues. Topics were in Urdu & English on themes of poverty in Pakistan, industrialization & climate change, among others.

Congratulations to the winners of the championship for debates in the English language.

- **1st position:** Rabab Batool – XI
- **2nd position:** Anas Kaleem – XI
- **Honorary Mention:** Rida Subzwari – XI and Raahima Waseem – A1

And congratulations to the winners of the Urdu language.

- **1st position:** Hassan Abbas – XI
- **2nd position:** Barira Ashraf – XI
- **Honorary Mention:** Rafay Asim – A1

GET Inspired!

The **Generation's Innovation Fair '22** created awareness among students of the rich legacy of creativity and innovation during the Golden Era of Muslim Civilization, inspiring students to build a better future. It's a rich learning opportunity, developing curiosity & interest in history and the latest trends in science and technology. This year Innovation Fair inspired over 500 external students apart from Generians, while 40+ exhibitors collaborated in the Exhibition of Innovation and Trendsetters segments.

- **Gadgeteer:** an inter-school competition to showcase abilities in various programming and robot construction fields
- **Exhibition of Innovation:** a showcase of creative projects and innovative ideas of Pakistani technologists to explore the Wonders of Science with the exhibits made by the Generians
- **Trendsetters:** bringing to centre stage the personalities who dreamt and made their ideas possible

SENIOR SECTION

Inter-School MUN Event & Assessments

Being Resilient

The world is fraught with many challenges. Thus, each moment is a blessing and an opportunity to reflect and improve habits, actions, and choices, and ultimately, improve the outcomes. Let's continue to make du'aa and be resilient in the face of adversity. Insha'allah!
